Experience

CHEWY   *Dania Beach, Florida*
Business Analytics Intern   *Jun – Aug 2022*
- Created a Tableau dashboard visualizing all active and non-active widget metrics over a specific date range or range of dates.
- Ensured that the SQL used during this project was correctly written through code reviews and additional quality checks.
- Met with various teams to go over the scope of the project and any features those teams would like to see included in the dashboard.

CHEWY   *Dania Beach, Florida (Remote)*
ChewyCase – 2022 Virtual Case Competition – 1st Place   *Jan 2022*
- Proposed the winning solution of creating and monetizing a service which would potentially generate $100M in sales within the course of five years as a result of IT implementations.

TALLO   *Mount Pleasant, South Carolina (Remote)*
Account Support Intern   *Aug 2021 – March 2022*
- Conducted industry research and identified areas of opportunity for the Education and Development teams.
- Engaged in strategy development for new areas of opportunity and provided other general support for the Tallo team.
- Created and developed a marketing strategy to facilitate new user engagement, by advertising on platforms such as Instagram and LinkedIn.

VIRTUAL SERVICE OPERATIONS (VSO)   *Irving, Texas (Remote)*
Business Analyst   *June 2020 – Dec 2020*
- Aided customers and provided services to the public in accordance with quality and quantity standards mandated by various laws, rules, and Federal regulations.
- Worked with claimants seeking unemployment to examine claims issues, answered questions and concerns, and made determinations to resolve complex or unusual problems related to eligibility for Unemployment Insurance benefits.
- Used the VMWare Horizon Client and RSA SecureID to connect to the remote environment and adjudicate claims.
